PERSONAL PROFILE

Marine veteran with over 8 years of extensive leadership and team collaboration skills transitioning into a new path to Software Development. Career supported by completion of LEARN Academy Full Stack Web Development Bootcamp. Looking to leverage my skills and experience to pursue my passion with an organization where I know my contribution will make an impact.

WORK EXPERIENCE

Full Stack Developer Student

LEARN Academy | Feb 2022 - present

- Completed 500+ hours of coding experience in an immersive web development bootcamp.
- Gained proficiency in different languages such as JavaScript, Ruby, HTML, CSS and built applications on frameworks to include React, Ruby on Rails, and database management using PostgreSQL.
- Effectively collaborated with team members through mob and pair programming on various projects.
- Conducted test driven development using Jest, and RSpec.

Electrical Department Manager

United States Marine Corps | May 2011 - June 2019

- Successfully supported 25 exercise operations with power generation utilizing electrical equipment and ensuring safety of all staff members. Advised senior leadership on the efficient use of equipment for future operations.
- Maintained 100% accountability of over \$30M worth of electrical equipment through training exercises by conducting over 300 inspections and quality control to maintain a fully operational organization.
- Coordinated and conducted over 200 weekly job-related technical training to sharpen employee's knowledge within their roles which increased training readiness and professional development within the company.
- Served as a Senior Electrician for a humanitarian disaster relief in the Philippines during Typhoon Haiyan. Provided electrical power for 500 hours to maintain stable communication between internal and external agencies.
